"94, Commercial Road, Peckham, July 12.

"Dear Sir,—I am a poor hand at expressing my feelings, but I should like to thank you. Your losenges have done wonders in "relieving my terrible couch. Since I had the operation of "Trachectomy" (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive) performed at St. Bartholomew's Hospital, no one could possibly have had a more violent cough; it was so had at times that it quite exhausted me. The mucus, which was very copious and hard, has been seftened, and I have been able to get rid of it without difficulty.—I am, sir, yours truly, J. HILL."

MEDICAL NOTE. The above speaks for itself. From strict inquiry it appears that the b-nefit from using Keating's Cough Lozenges is understated. The operation was a specially sovere one, and was performed by the specialist. Dr. H. T. Butlin, of St. Bartholomew's Hospital. Since the operation the only means of relief is the use of these Lozenges. Be successful are they that one affords immediate benefit, although from the nature of the case the threat irritation is intense. the throat irritation is intense.

UNR VALCED TESTIMONY Under date Sept. 8th, 1691, Mr. Hill again writes: I should long since have been dead, but for your Lozenges—they are worth their weight in gold. I will gladly see and tell anyone what a splendid cough remedy they are.

Kenting's Cough Lozenges the unrivalled remed for COUGHS, HOARSENESS and THROAT TROUBLES, are sold in Bottles by all Chemists.

Ar the Magistracy to-day Mr Wodehouse concluded the hearing of evidence in connection with a fatal accident in Fuk On Lane, Market Street. By the falling of the soof of mesonic house, a barber named Chau a On, had his left leg broken on 20th August, and to subsequently succumbed in the Citil Mospital to the injuries he received. In the course of his evidence, Mr H. P. Tooker, executive engineer, Public Works Department, stated that the Director of Pablic Works assumed no responsibility with regard to structures individuals. Notice would not be given unless the structure was dangerous to the public at large. He thought the wall in this case had been forced in by the pressure of several tone of earth piled against it, and in consequence of the heavy rains. Mr Wodehouse found that death was occasioned by injuries received from the falling of a parti wall upon the roof of house No. 8 Fuk On Lane, thereby causing it to collapse and its ruins to fall upon the deceased. The falling of the parti wall was occasioned by the pressure of earth against it, said earth having been piled against it in order to make an approach to a new house in course of erection, belongingto a woman named Chung Shi.

A NEW process for the artificial production of those precious stones which consist casentially of crystallised alumina has been davised, says Industries, by Mr James Morris, of Glasgow. Some few years ago a process was shown in Paris for the preparation of small artificial rubics, but Mr Morris has succeeded in obtaining crystals one-sixteenth of an inch in diameter. We shall await with interest further in-There appears to be no reason why the ruby and sapphire should not be obtained have hitherto proved failures.
